VickySteeves VickySteeves VickySteeves

Objective

I work to support researchers in creating well-managed, high quality, and reproducible research through integrating reproducible practices into the research workflow, advocating openness in all facets of scholarship, and building/contributing to open infrastructure.

Education

Simmons College **Boston, MA**
Master of Library & Information Science *2013 – 2014*

Simmons College **Boston, MA**
Bachelor of Science Computer Science & Information Technology *2010 – 2013*

Graduate and Undergraduate Research Experience.....

Supervisor: Kathy Wisser **Boston, MA**
Small World Project *Spring 2014*
Analyzed research done with social media networks on archival material and visualized the analysis using Gephi.

Supervisor: Nanette Veilleux **Boston, MA**
Computational Linguistic Approach to Inflection in Human Speech & Difference *2012 – 2013*
Recorded speech exemplars and used a specialized programming language (Praat) to write a program to determine the tonal center of gravity of each exemplar and make sure that it matches the intended intonational contour.

University College Cork **Cork, Ireland**
Celtic Studies *July 2012*
Completed coursework in Irish language, literature, and history.

Awards and Honors.....

Simmons College
Dean's Fellow Award *2013 – 2014*
Given to students that demonstrate academic excellence.

Simmons College Computer Science & Information Technology Department
The Computer Science Award *2013*
Given for excellence in Computer Science.

Simmons College
Collaborative Research Experience for Undergraduates *2012 – 2013*
A research grant given to encourage women in STEM fields to complete research studies in their fields.

Simmons College
Bowker Award for Travel *2012*
Given to undergraduates who demonstrate academic excellence, completing their studies abroad.

Simmons College
Simmons College 3+1 Undergraduate and Graduate Program *2010 – 2014*
First participant.

Professional Experience

Simmons College

Adjunct Professor

I teach database management online for the School of Information and Library Science. Fall 2017 & Spring 2018.

Boston, MA

2017 –

New York University

Librarian for Research Data Management & Reproducibility

A dual appointment between NYU's Division of Libraries and Center for Data Science. In this role, I work to support students, faculty, staff, and researchers in creating well-managed, high quality, and reproducible research through facilitating use of tools such as ReProZip, teaching and instruction, and group and individual consultations.

New York, NY

2015 –

Instruction: Teach between 25-50 classes per academic year on research data management and reproducibility best practices and tools at Bobst and the Bern Dibner Library. Teach federally mandated NSF & NIH Responsible Conduct in Research (RCR) data management sessions for the Office of Postdoc Affairs, Anthropology Department, Center for Neural Science, and College of Nursing. Intensives (half or full day long workshops) Advanced Quantitative Reasoning program, December 2016; Steinhardt Food Studies & Nutrition Summer Workshop, July 2016; Wagner Faculty Workshop, October 2016; Rebecca Amato Humanities Data Workshop, April 2017.

Outreach: Organize events to foster a community of data stewardship and reproducibility at NYU (e.g. NYU Reproducibility Symposium), as well as locally in NYC (e.g.), on a national level (e.g. Love Your Data Week), and an international level (e.g. EGU, URFIST). Redeveloped and maintained the new Data Services blog, Data Dispatch through piloting a new web hosting service for the Digital Scholarship Services called reClaim.

Service Building: Built new services around data management and reproducibility in the Libraries. Serve as a consultant to the NYU community on subjects such as: data management, reproducible research practices, data management plans for grants, data visualization, data & code citation, publishing non-traditional research output, data cleaning, Python, version control, GitHub & GitLab, data and code licensing, workflow/collaboration tools, and open source tools. Provide multidisciplinary reference services (office hours, email, phone) to the NYU community. Created and maintain a soft incentives program to encourage RDM amongst library patrons, called the Research Data Management Badges, where patrons can accrue points through attending Data Services classes, practicing good data management, and making their research open access to earn a badge.

Technical Development: Coded utilitarian programs for researchers to leverage for data management, including scripts to: bulk rename files, scrape text from RSS feeds, download, unzip, and concatenate many tabular datafiles from NOAA, and create a README for each file. Created and maintain reproduciblescience.org/nyu, a source of information for the NYU community on events, resources, and expertise on campus for reproducibility.

Metropolitan New York Library Council

Interim Program Coordinator

New York, NY

2015 – 2016

I handled the day-to-day operations of METRO's National Digital Stewardship Residency in New York program. I contributed to project planning, communications, documentation, evaluations, outreach, as well as maintained the program's web presence. I planned, organized, and ran NDSR-affiliated events, meetings, and workshops.

American Museum of Natural History

New York, NY

National Digital Stewardship Resident

2014 – 2015

My project at the AMNH consisted of performing an environmental scan of the Science divisions to better understand their data storage, curation, and preservation needs. After data collection, I identified existing practices and policies for integrated data storage, access, and management. After data analysis, I recommended strategies to digitally preserve the scientific research at the AMNH.

Sasaki Associates

Waterville, MA

Archives Intern

Spring 2014

I processed historical architectural material and wrote the accompanying finding aid and created records for each, then catalogued the collections in Koha ILS

Simmons College

Boston, MA

Dean's Fellow for Technology

2013 – 2014

I managed social media for the undergraduate science departments to generate interest in STEM at Simmons through outreach to alumnae, current students, and prospective students, working on content creation with faculty.

Other Professional Work

The LIS Scholarship Archive: Co-director of [LISSA](#), a partnership with the Center for Open Science & the LIS community to build a place for LIS scholars to share their work.

SPARC: Contributor to the SPARC International Survey on Research Data Management Readiness (with Nick Wolf and Scott Collard).

Radian: Editor.

The Idealis: Editor.

CLIR: Participant, 2016 CLIR eResearch Network Research Data Management cohort.

Preservation and Archiving Special Interest Group: Chaired the committee responsible for the reproducibility track of the Fall 2016 conference.

Center for Open Science: Open Science Framework Ambassador. Participant in the 2016 SHARE Curation Associates program.

DLF: Participant in the 2016 eDLF Data Management Cohort.

Data And Software Preservation for Open Science: External organizer for the workshop on containerizing science.

Library Information and Technology Association: Taught a one-month course on building library services around openness and reproducibility.

Preservation and Quality Tools: Facilitated a hands-on session at this workshop on ReproZip.

Data And Software Preservation for Open Science: Led multiple hands-on sessions on ReproZip. Presented to the DASPOS board of directors on NYU's open source reproducibility initiatives.

OpenCon: Guest lectured on reproducibility for the OpenCon early career librarian's call.

Metropolitan NY Library Council (METRO): Presented a webinar teaching RDM principles to library and information professionals.

Pratt School of Library and Information Science: Guest lectured in Meg Smith's Data Librari-

anship class on my career path, RDM, and reproducibility. 2016 & 2017

Palmer School of Library & Information Science: Guest lectured in Don Mennerich's Digital Archives class for the Public History program on RDM. 2016 & 2017

Queen's College Graduate School of Library & Information Science: Guest lectured in Robert DeCandido's digital stewardship class at Queens College on data management, NDSR, and my career path.

Technical skills

Programming Languages: Python, R, Java, C, C++, Objective C, Perl, PHP, SQL, HTML, CSS, JavaScript, jQuery, AJAX, and Praat

Operating Systems: Ubuntu Linux, Microsoft Windows, Mac OSX

Library Standards: XML,JSON, XSLT, DDI, EAD, DACS, PREMIS, MARC, Dublin Core

Employment History

New York University **New York, NY**
Librarian for Research Data Management & Reproducibility 2015 –

Metropolitan New York Library Council **New York, NY**
Interim Program Coordinator 2015 – 2016

American Museum of Natural History **New York, NY**
National Digital Stewardship Resident 2014 – 2015

Simmons College **Boston, MA**
Dean's Fellow for Technology 2013 – 2014

Simmons College **Boston, MA**
Technical Resource Assistant 2013 – 2014

Provide technical instruction to students, staff, and faculty at the Graduate School of Library and Information Science (GSLIS). Troubleshoot hard/software issues within GSLIS for students, staff, and faculty.

Simmons College Computer Science Department **Boston, MA**
Teacher's Assistant 2011 – 2013

Assist in creating classwork, homework, and quizzes for students to complete. Grade students' work and report these grades to the instructor.

Simmons College Computer Science Department **Boston, MA**
Lab Monitor 2011 – 2013

Assist students with troubleshooting soft/hardware issues. Repair and maintain computers in the computer science laboratory.

Research Interests

Professional Interests: Data management, reproducibility, digital preservation, digital archiving, systems analysis, database management, web development, software engineering and development, computational linguistics.

Personal Interests: Animal care, outdoorswomanship, music, and creative writing.
